12 March 2020

To all who live in Sioux County and our region,

Each of our four county health systems/hospitals, together with Community Health Partners, serve our region with solidarity of purpose and unity of mission: to promote, protect, and improve the health and well-being of all who live, learn, work and play in Sioux County and our region … every day. In addition to 24/7/365 healthcare, we prepare — collaboratively when needed — for any special incidents or events that might arise. That includes infectious diseases like the novel coronavirus/COVID 19.

Rest assured that your healthcare teams are working together, communicating regularly, and sharing information and resources as needed to address the coronavirus/COVID-19 pandemic as it continues to evolve and affect our region.

Protocols are in place and we continue to develop and adjust them to best meet the needs of all who live in Sioux County, including our patients, senior care residents, and staff. Please contact your local healthcare provider or Community Health Partners if you have any questions or concerns.

Thank you for trusting us with your health, safety, and well-being.
